

Using The Ballancer®

The Ballancer® is a multi-purpose innovative device produced by the manufacturers of the "Lympha Press" products widely known for their effectiveness in the treatment of lymphatic and venous disorders.

The action of the Ballancer® aids in the removal of excess interstitial waste fluids, accelerates venous and lymphatic return, and promotes total body relaxation for a general improvement in well-being.

In sports, the Ballancer® is recommended for enhanced muscle relaxation and relief of muscle fatigue caused by intensive athletic activity and to aid recovery from sports injuries.

Using the Ballancer® regularly may help to:

- ◇ Prevent development of cellulite.
- ◇ Interrupt the accumulation of cellulite.
- ◇ Prevent and treat varicose veins.
- ◇ Reduce limb and body swelling.
- ◇ Shape legs, arms, buttocks, and belly.
- ◇ Relieve leg pains due to obesity and hard work.

Benefits Of Pressotherapy~ Lymphdrainage

Circulatory System: Lymphdrainage can improve the circulation of blood throughout the body increasing oxygen. Helps remove metabolic waste and can be beneficial in decreasing blood pressure.

Lymphatic System: Lymphdrainage can help increase lymph circulation, aids in the elimination of metabolic wastes, stimulates the immune system, and enhances endermologic treatment of lymphatic drainage.

Muscular System: Lymphdrainage stimulates and tones muscles and joints, and strengthens connective tissues. Aids in relaxation, relieves fatigue and provides relief from muscle spasms. Lymphdrainage stimulates motor nerve points, alleviates stress and tension, and promotes a feeling of well being.

Skin Toning: Lymphdrainage increases the supply of blood to the skin nourishing tissues and thus facilitating cell regeneration.

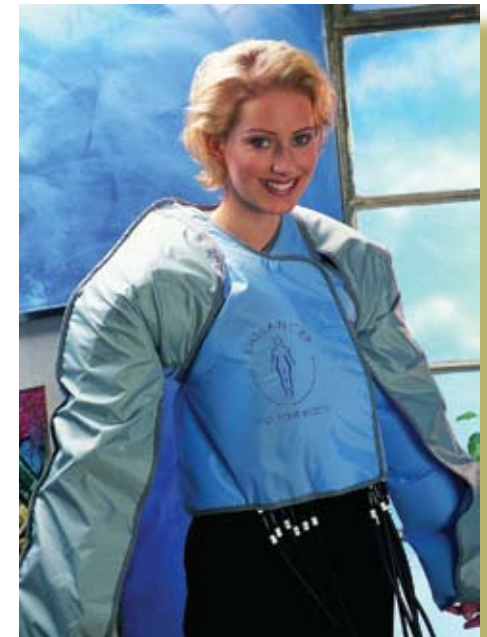

The Feeling~
*The Ballancer's® intermittent
pneumomassage is as
powerful and soothing as
manual lymphdrainage.*

Applications

- * **Plastic surgery** ~ pre/post liposuction (edema reduction, recovery)
- * **Aesthetic salons** ~ cellulite treatments, adjunctive treatment for vacuum roller (vacuomobilization) massage
- * **Spa/home use** ~ cellulite treatments, massage and relaxation

How It Works

- * Following the principles of lymphatic drainage (“pressotherapy”), the Ballancer® applies a wave of gentle pressure to the subdermal tissue, from ankle to abdomen
- * The effect is an increased lymphatic drainage and venous return

Micromassage Hosiery:

Should be worn between **Ballancer® Lymphdrainage Vascular** sessions in order to ensure a successful and measurable outcome.

Ballancer® Professional:

A total system for clinic, salon and home use.

- * Fully programmable, for individualized client treatment.
- * 24 overlapping pressure compartments.
- * Sequential, peristaltic compression designed to activate lymphdrainage and venous return.
- * Pressure range of 20-80 mmHg.

Ballancer® Basic Pants:

With 24 cells for complete lower-body lymphatic massage, including lumbar area treatment, the Ballancer® Plus Pants are ideal for slimming applications and cellulite treatments.

Ballancer® Jacket:

12 cells provide a peristaltic and sequential pressure gradient lymphdrainage to the upper body and soothes sore muscles for ultimate relaxation.
